**“A Dream of Being an Anesthesiologist
in the US & Experiences in NY,
the Epicenter of COVID-19”**

【Speaker】

Ryotaro Nagai, MD

I graduated from Dokkyo Medical School and studied under Phof. Yamaguchi, the chair of Anesthesiology. Fortunately, I had the special opportunity to complete Anesthesiology Residency twice, in Tokyo and New York. At this webinar, I would like to share those special experiences, especially what happened in New York, the epicenter of the COVID-19 Pandemic.
